

We're looking for a Junior Creative!

Who are we?

Electric House is a social media agency with a difference – we're a publisher too. We create, produce and distribute shockingly good video content through our social media communities (and beyond), earning untouchable results for our clients.

A career with us is a vibrant one - we're a rapidly growing agency, based in one of the most iconic offices of the West Midlands. And, whilst we may be getting bigger, we pride ourselves on the family-style culture at the heart of our business.

We look for people who want to be a part of that culture, which means people who share our values. We create together, we believe in being passionate and honest, and we always strive to have a consistent positive impact on the business and on the people around us.

Our founder set out to create a company where nobody hated Mondays, or felt undervalued, and we work hard to uphold those principles. 96% of respondents in a recent team survey said they would refer a friend to work with us, so hopefully, we're doing a good job.

If you're looking to be part of something special - something dynamic, and exciting - Electric House could be the place for you.
