

# We're looking for a Video Editor!

## Who are we?

Electric House is a social media agency with a difference – we're a publisher too. We create, produce and distribute shockingly good video content through our social media communities (and beyond), earning untouchable results for our clients.

A career with us is a vibrant one - we're a rapidly growing agency, based in one of the most iconic offices of the West Midlands. And, whilst we may be getting bigger, we pride ourselves on the family-style culture at the heart of our business.

We look for people who want to be a part of that culture, which means people who share our values. We create together, we believe in being passionate and honest, and we always strive to have a consistent positive impact on the business and on the people around us.

Our founder set out to create a company where nobody hated Mondays, or felt undervalued, and we work hard to uphold those principles. 96% of respondents in a recent team survey said they would refer a friend to work with us, so hopefully, we're doing a good job.

If you're looking to be part of something special - something dynamic, and exciting - Electric House could be the place for you.

## The role

Our busy in-house Production Teams make thumb-stopping videos for our own social channels and those of our clients. The type of videos we produce includes user-generated style content, mini-documentaries, live shows/competitions, sketches, product reviews, product hero videos, and more.

As Video Editor, you will collaborate with Producers and Videographers in the post-production stage to realise the brief, using your expertise to edit and deliver seamless video content for a range of social channels. All projects will be delivered to the highest standard and you will always be looking at ways to elevate our content as we want it to be head and shoulders above the rest!

As a Video Editor, you will:

- Have advanced knowledge of the video production process, including editing video content for social channels.
- Complete detailed edit plans in the pre-production stages
- Complete seamless video edits to the highest standards within a given time frame
- Have the creativity and ability to confidently express your thoughts and ideas to produce high-quality video edits

- Constantly be looking to improve video editing standards within Electric House
- Share knowledge through ongoing training and continually offer support to the production team and the wider business when applicable
- Use Premiere Pro to cut footage and create seamless video content
- Use After Effects to create animated graphic and text
- Use Photoshop to edit and retouch imagery
- Be confident and professional whilst on shoots and offer advice and direction when required

## The Successful Candidate

The successful candidate will:

- Have a full clean driving license and own car.
- Have excellent video editing skills, with proven experience in using Premiere Pro, After Effects, and Photoshop. Experience with Illustrator would also be beneficial
- Have a passion for all things video related, an interest in the construction sector would be an added bonus
- Be well organised, with the ability to handle multiple projects at once and deliver edits that depict the brief and follow strict deadlines
- Have at least two years experience in video editing.
- Have an excellent understanding of editing video content for social media platforms
- Be able to consistently deliver projects to a high standard
- Be a creative thinker who is comfortable proposing new ideas and enjoys working in a collaborative environment
- Be comfortable working in a fast-paced environment, with excellent organisation skills
- Take a positive approach to all tasks and projects, with an attitude that 'no job is too small'
